your project needs!

ThermaRIM

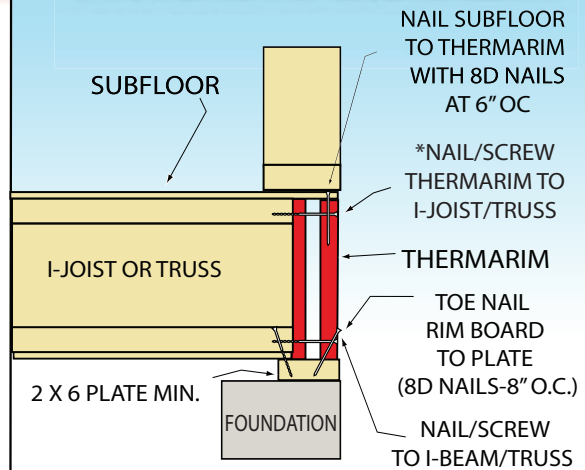

Insulated Rim Board

- ThermaRim Insulated Rim Board and its joining member must have continuous structural support
- A 6" minimum width sill plate is required
- See APA data file for design properties, span lengths and further installation details
- ThermaRim Insulated Rim Board is made with APA Rated Rim Board per standard PRR-401 and is ideal for difficult to insulate areas (prime heat loss areas)
- ThermaRim is designed for rim board and starter joist applications only. Not recommended for use as a structural joist, rafter, header or ledger
- Caulk or seal all connections and joints to minimize heat loss

**MEETS REQUIREMENTS OF
ICC-ES AS124 FOR STRUCTURAL RIM BOARD**

Specifications and size availability subject to change without notice.

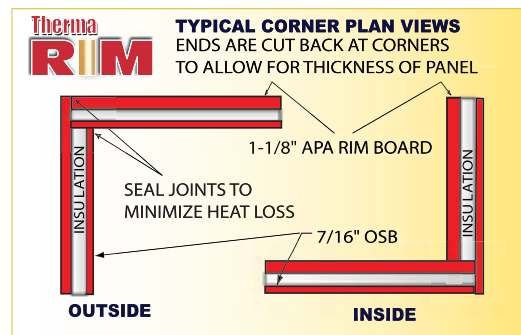

TYPICAL ATTACHMENT

NOTE: JOIST TO PLATE CONNECTIONS AND TEMPORARY BRACING AS REQUIRED BY I-JOIST OR TRUSS MFR'S SPECIFICATIONS

*THERMARIM TO I-JOIST/TRUSS NAIL OR SCREW SCHEDULE

*R-11 3-1/8" THERMARIM -
4-1/2" NAIL OR 4-1/2" #12 SCREW

Here's what we are famous for... CORNELL CORPORATION
